Date: 12 December 2025

To Gerard White VO1OR

Dear Gerard,

In response to your coordination request IARU has assigned the following frequency for **MUNStar-1**.

up- and down-link 436.175 MHz with emission designator 20K0F1D, EIRP 2 Watt.

Licensing administration: Canada

Planned launch date Q4 2026

Planned Height and Orbit: Apogee 510 km, perigee 510 km, inclination 97.3 degrees, period 96 min

Telecommand station VO1KLK

IARU has coordinated frequencies in bands allocated to the amateur satellite service. All frequencies in the amateur satellite service are shared frequencies.

Please inform me about the final launch date and the API/A number as soon as that information becomes available. IARU encourages you to notify your satellite within one month after successful deployment.

Best wishes for a successful project.
